Scope of Services

Warehouse Addition – This project involved constructing a 60' x 80' warehouse expansion adjacent to the shipping and receiving area of the existing manufacturing facility. A pre-engineered steel building was specified, and the project was completed in five months.

Project Notes

- + Collaboration with trusted long-term subcontractor partners contributed to the successful delivery of the project.
- + Despite long equipment lead times, project management team proactively mitigated delays and maintained progress.
- + Navigated challenges of this building expansion within a live workplace by implementing stringent safety protocols, robust communication, and close coordination with facility operations.
- + R.H. White self-performed the concrete foundation, building drain repairs, and rerouting of the existing facilities' fire line.
