

# Building Construction Project

**OWNER**  
PremaTech

**ADDRESS**  
160 Goddard Memorial Dr.  
Worcester, MA

**ENGINEER**  
Saccoccio &  
Associates

**PROJECT VALUE**  
\$8,090,377

## Scope of Services

**Vacuum Furnace** – Provided interior alterations and installed one vacuum furnace with monorail cranes. Constructed an 918 sf MTS Chemical Storage Building which connects through process piping to two chemical tanks.

## Project Notes

- + **Self-performed concrete pads for multiple tanks** outside the facility, and for an HVAC unit, and a generator.
- + **Sitework included excavation**, the relocation of a retention pond, paving and landscaping.
- + **Installed emergency tempered water loop** and safety showers.
- + **Installed man doors, electrical room, mechanical/HVAC**, fire protection and sprinkler system.
- + **Connected underground process piping** from MTS building, to the existing building, and the tank farm.
- + **Installed Generator EPO button and Generator Remote Annunciator** at a location acceptable to Worcester Fire.
